PARKING CONSULTANCY FOR BUILDERS, ARCHITECTS AND DEVELOPERS

We help you choose, plan and deliver the right parking system for your project.

Plan | Design | Execute | Support

Smart Parking. Better Spaces.

ABOUT US

EXPERT GUIDANCE FOR EVERY PARKING PROJECT

India Multiparking Consultancy provides expert consultancy for mechanical, stack and puzzle parking systems. We help builders, architects and developers design the right parking solution for their projects.

With industry experience and technical knowledge, we guide you from planning to execution and ensure smooth operation with reliable support.

WHY CHOOSE US

01
Expert consultancy
The right solution for your project.

02
Reliable, safe systems
Quality and long life.

03
Space-saving design
More parking in less space.

04
Experienced team
Project support at every step.

05
Trusted partners
Work with leading manufacturers.

06
AMC and service
Long-term support and maintenance.

Your Vision + Our Expertise = Smart Parking

CONSULTANCY SERVICES

FROM FIRST SKETCH TO SMOOTH OPERATION

01

Feasibility and space planning

We study your site, vehicle count and budget to confirm what parking capacity is achievable.

02

System selection

We compare stack, puzzle and mechanical parking and recommend the one that fits your project.

03

Design and drawings

Layouts and technical drawings that your architects and contractors can work from.

04

Vendor and manufacturer selection

We shortlist and evaluate leading manufacturers so you can compare like for like.

05

Installation supervision

On-site supervision so installation follows the approved design and safety requirements.

06

AMC and service

Annual maintenance contracts and service support for long-term, reliable operation.

PARKING SYSTEMS

THE RIGHT SYSTEM FOR YOUR SPACE AND BUDGET

MECHANICAL PARKING

- Fully automatic system
- High parking capacity
- Ideal for residential, commercial and office buildings
- Safe and reliable operation

STACK PARKING

- Two or more cars stacked
- Saves floor space
- Easy to operate
- Best for small and medium projects

PUZZLE PARKING

- Horizontal and vertical movement
- Maximum space utilization
- Suitable for large projects
- Smart and efficient design

HOW WE WORK

PLAN. DESIGN. EXECUTE. SUPPORT.
